Milieu Colour Mini

An elegant pendant lamp featuring a breath-taking organic design. The Milieu series was originally designed in 1975 by the renowned Danish lighting designer Jo Hammerborg. The beautiful pendant floats lightly and elegantly in a room like a celestial body in the sky. Its multi-layered hemispherical shape creates a beautiful lighting effect with no glare. The original design was inspired by Jo Hammerborg's great passion for flying and parachuting. Just like a parachute, the individual layers unfold beautifully, and the pendulum features a unique harmony and lightness - marks of a true design classic.

As a tribute to Jo Hammerborg's love for metals, the Milieu Mini Colour Brass pendant is available in this exclusive version where the shades multiple layers are carried out in solid brushed brass. Choose between black or white in Warm Nordic's exclusive silky matt colours for an extraordinarily beautiful and durable surface.
