## WICHTIGE SICHERHEITSANWEISUNGEN

Bei der Installation oder Verwendung dieses Schienensystems sollten immer grundlegende Sicherheitsvorkehrungen getroffen werden, einschließlich der folgenden:

1. Lesen Sie alle Anweisungen.
2. Schneiden Sie keine Schienenabschnitte ab.
3. Nur für Innenräume geeignet. Installieren Sie diese Schiene nicht in feuchten oder nassen Räumen.
4. Installieren Sie keinen Teil des Schienensystems weniger als 5 Fuß über dem Boden.
5. Installieren Sie keine Leuchtenbaugruppe näher als 6 Zoll von einem Vorhang oder ähnlichem brennbaren Material entfernt.
6. Schalten Sie die Stromversorgung vor der Installation oder vor Wartungsarbeiten aus.
7. Überschreiten Sie nicht die Nennwerte der Versorgungsspannung oder Stromstärke.
8. Versuchen Sie nicht, etwas anderes als die Stromschienenleuchten an der Schiene unter Spannung zu setzen. Um die Gefahr von Bränden und elektrischen Schlägen zu verringern, dürfen Sie keine Elektrowerkzeuge, Verlängerungskabel, Geräte oder ähnliches an die Stromschiene anschließen.
9. Schließen Sie eine Stromschiene nicht an mehr als einen Stromkreis an, es sei denn, die Stromschiene ist so konstruiert, dass sie mit mehr als einem Stromkreis verwendet werden kann. Wenden Sie sich an einen qualifizierten Elektriker. Auch wenn die Stromschienenbeleuchtung scheinbar einwandfrei funktioniert, kann es zu einer gefährlichen Überlastung des Nullleiters kommen, was zu einer Brandgefahr führen kann.
10. Tragen Sie Schuhe mit Gummisohlen und arbeiten Sie auf einer stabilen Holzleiter oder einer nicht leitenden Leiter.
11. Das Produkt muss an einem Ort und in einer Höhe montiert werden, die dem Verwendungszweck entsprechen, und zwar in Übereinstimmung mit dem National Electrical Code und den örtlichen Bauvorschriften.
12. Die dimmbare Version kann mit einer Vielzahl von empfohlenen TRIAC-Dimmern kompatibel sein.

## Installationsverfahren

### WARNUNG

1. Schalten Sie das Gerät vor der Installation aus.
2. Erst nach vollständiger Installation und Prüfung des Stromkreises einschalten.
3. Nur von einer Elektrofachkraft installieren und warten lassen.

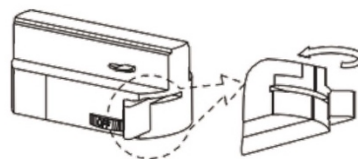

### Schritt 1

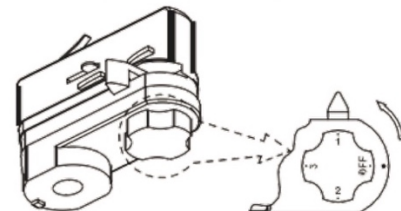

Schalten Sie die Stromzufuhr aus, bevor Sie mit der Installation beginnen. Lesen Sie die Anweisungen und stellen Sie sicher, dass Sie alle Werkzeuge und Zubehörteile haben, um die Installation korrekt durchzuführen.

### Schritt 2

Vergewissern Sie sich vor dem Einsetzen des Adapters in den Schienenabschnitt, dass er in der Position 'OFF' steht und der 'Verriegelungshebel' in der abgebildeten Position ist.

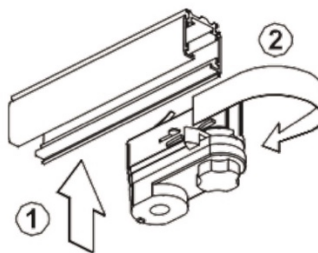

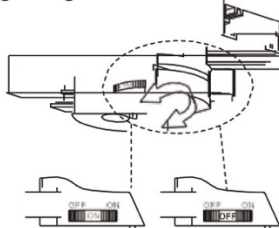

2-Drähte, 3- Drähte-Adapter

4- Drähte-Adapter

### Schritt 3

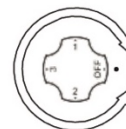

Setzen Sie den Schienenadapter in den Schienenabschnitt ein (1) & verriegeln Sie ihn durch Drehen des Verriegelungshebels um 90° (2).

## IMPORTANT SAFETY INSTRUCTIONS

When installing or using this track system, basic safety precautions should always be followed, including the following:

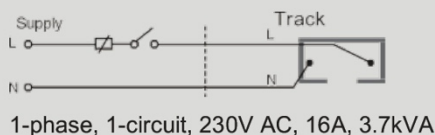

1. Read all instructions
2. Do not cut any track sections.
3. For Indoor use only. Do not install this track in damp or wet locations.
4. Do not install any part of a track system less than 5 feet above the floor.
5. Do not install any luminaire assembly closer than 6 inches from any curtain, or similar combustible material.
6. Turn off power before installation or before doing any maintenance work.
7. Do not exceed the nominal supply voltage or amperage ratings.
8. Do not attempt to energize anything other than lighting track luminaires on the track. To reduce the risk of fire and electric shock, do not attempt to connect power tools, extension cords, appliances, and the like to the track.
9. Do not connect a track to more than one branch circuit unless the track is constructed so that it can be used with more than one branch circuit. Check with a qualified electrician. Although the track lighting system may seem to operate acceptably, a dangerous overload of the neutral may occur and result in a risk of fire.
10. Wear rubber soled shoes and work on a sturdy wooded or non-conductive ladder.
11. Product must be mounted in location and at height in a manner consistent with its intended use, and in compliance with National Electrical Code and local building codes.
12. Dimmable version could be compatible with a wide range of recommended TRIAC dimmers.

## Select Adaptor Before You Buy The Track Light

## Installation Procedure

### WARNING

1. Switch off before installation.
2. Switch on only after complete installation and examination of the circuit.
3. Professional electrician for installation and maintenance only.

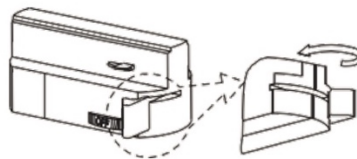

**Turn Off  
Power Supply**

### Step 1

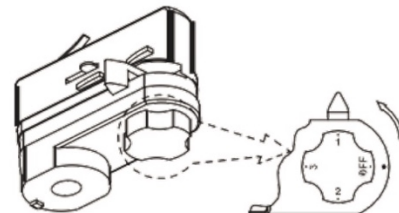

Turn Off power supply before starting any installation. Read instructions & check you have all the tools & accessories to complete the installation correctly.

### Step 2

Prior to locating Adaptor into Track Section make sure it is set in the 'OFF' position & 'Locking Lever' is set in the position shown.

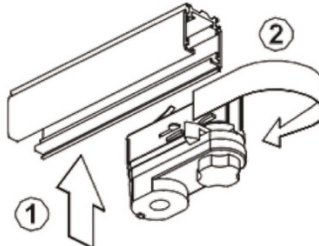

2-wires, 3-wires adaptor

4-wires adaptor

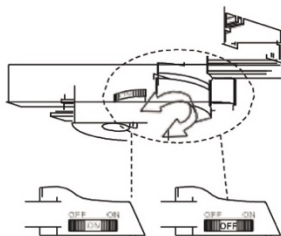

### Step 3

Locate Track Adaptor into Track Section (1) & lock into position by turning 'Locking Lever' 90°(2)

## IMPORTANTES CONSIGNES DE SÉCURITÉ

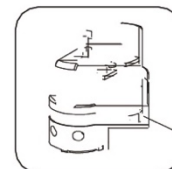

Lors de l'installation ou de l'utilisation de ce système de chenilles, les précautions de sécurité de base doivent toujours être respectées, notamment les suivantes:

1. Lire toutes les instructions.
2. Ne coupez aucune section de rail.
3. Utilisation à l'intérieur uniquement. Ne pas installer ce rail dans des endroits humides ou mouillés.
4. N'installez aucune partie d'un système de rails à moins de 1,5 m du sol.
5. N'installez pas de luminaire à moins de 15 cm d'un rideau ou d'un matériau combustible similaire.
6. Coupez le courant avant l'installation ou avant d'effectuer tout travail d'entretien.
7. Ne dépassez pas la tension ou l'ampérage nominaux de l'alimentation.
8. N'essayez pas de mettre sous tension quoi que ce soit d'autre que les luminaires du rail d'éclairage. Pour réduire les risques d'incendie et d'électrocution, n'essayez pas de connecter des outils électriques, des rallonges, des appareils électroménagers, etc. au rail.
9. Ne connectez pas un rail à plus d'un circuit de dérivation, sauf si le rail est construit de manière à pouvoir être utilisé avec plus d'un circuit de dérivation. Vérifiez auprès d'un électricien qualifié. Bien que le système d'éclairage sur rail puisse sembler fonctionner de manière acceptable, une surcharge dangereuse du neutre peut se produire et entraîner un risque d'incendie.
10. Portez des chaussures à semelle en caoutchouc et travaillez sur une échelle solide en bois ou non conductrice.
11. Le produit doit être monté à l'endroit et à la hauteur correspondant à l'usage auquel il est destiné, et en conformité avec le Code national de l'électricité et les codes de construction locaux.
12. La version gradable peut être compatible avec une large gamme de gradateurs TRIAC recommandés.

## Procédure d'installation

### AVERTISSEMENT

1. Mettez l'appareil hors tension avant de l'installer.
2. Ne mettez l'appareil en marche qu'après l'installation complète et l'examen du circuit.
3. Un électricien professionnel pour l'installation et l'entretien uniquement.

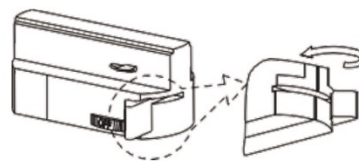

### Étape 1

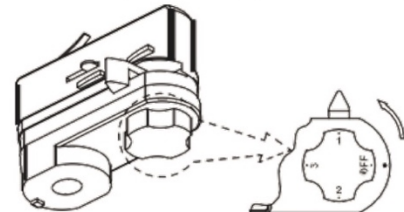

Coupez l'alimentation électrique avant de commencer toute installation. Lisez les instructions et vérifiez que vous avez tous les outils et accessoires nécessaires pour effectuer l'installation correctement.

### Étape 2

Avant de placer l'adaptateur dans la section du rail, assurez-vous qu'il est réglé sur la position "OFF" et que le levier de verrouillage est réglé sur la position indiquée.
