# BALL.

Designer: Benny Frandsen

WALL LAMP WITH USB PORT.

Let's face it – most of us work best with our mobile or tablet close at hand. This Ball model gives you this opportunity with a little shelf and a practical built-in USB charging port.

"Just because BALL is 50 years old and continues to be a bestseller doesn't mean we've stopped developing it. We aim to meet our customer's needs at home, and the perfect place to start is by incorporating mobile devices into the design," says Benny Frandsen, designer of BALL.

This design is ideal as a bedside table or near the sofa, where you can always have your little helper close at hand and recharge it at the same time. No more desperation when your tablet dies in the middle of your favourite Netflix series or when your alarm doesn't go off in the morning because your mobile ran out of juice in the middle of the night!

Materials:
Metal plated
Painted white inside

Cord:
250 cm fabric

On/off:
Switch on wall box

USB port:
Placed at the side of the lamp. 2000 MA/5V
