

Standing Frame

Congrats on your new Standing Frame!

We hope very much that you are going to be happy with your new Standing Frame for many years to come. In the following pages you will find out how to assemble and look after your new home accessory.

Product description

Standing Frame consists of two pieces of acrylic glass, four sides made of either untreated wood or aluminium, and a rubber band.

Our frames are designed to fit most sizes of photos, prints or postcards, and to accommodate different surface textures.

Due to variations in temperature and humidity, subtle changes in the acrylic glass may cause your artwork to move in the frame. If this happens, we suggest flipping the two pieces of acrylic glass inside out or using a small piece of tape or neutral glue to hold your artwork in place. You can also make your artwork thicker by placing an additional piece of paper behind it.

Assembly

Please see the following assembly instructions or find them at www.moebe.dk

Taking care of your new Standing Frame

Dust the frame with a soft, dry cloth. For deeper cleaning, wipe with a damp cloth and mild soap. Wipe of any liquid on the surface to prevent stains.

5 Year Warranty

We believe in what we do and in the quality of our products. That's why we give you a 5 year warranty. This guarantee covers any functional, material or manufacturing defect on any product you buy from us for private use.

Spare parts – Keep it going forever

All our products are component based and have been designed this way to make repairs simple. You can find and purchase all spare parts for your product on www.moebe.dk for a period of at least 5 years after your purchase. It should always be cheaper and easier to repair, than buying new.

Recycling

Whilst we hope that your MOEBE Standing Frame will serve you well for many years to come, if you do at some point wish to recycle it then it is easy to do so. Simply split the product down into its separate parts and recycle them by material.

All parts can be recycled. How this is done depends on local regulations and facilities.
