Portable lantern light

Product description

The battery LED lantern impresses with its modern design and energy-saving, via battery-powered lighting technology. Formally reminiscent of a classic lantern. The integrated Li-Ion battery provides sufficient energy for more than 9 hours of operation with the device on at 100% light intensity. The touch ON/OFF switch with dimmer, as well as the USB socket is located below the luminaire lid. With a completely empty battery, it takes about 6 hours until the charge state has reached 100% again. Silica gel handle. Painting with polyester powder coating. Product with no visible screws.
