

Warning: Please cut off the electric before the installation.

**PRODUCT FEATURES**

- 1. The simple structure, small size, friendly installation.
- 2. No noise, No Glare, High CRI, High transmittance.
- 3. Energy saving, Eco-Friendly, 50000H Lifespan, Wide applicability.

**CAUTIONS:**

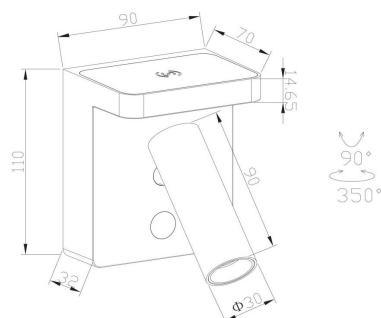

The luminaires should be installed, connected and tested by a qualified electrician. Do not use in direct sunlight, moist, shock, rain or corrosive gas condition. Avoid covering the lamp shell and avoid damage to the lamp. Do not touch the electric wire when the cable wire is to be damaged before the luminaires installation or replacement.

The light cannot be covered by insulating tape or other materials. Using environment temperature too high or too low will impact the lifespan. When cleaning the lamp, please use soft cloth and keep away from using and clean brush or not rough with volatile materials such as thinner and gasoline, to prevent deterioration. The surface of the lamp should be maintained regularly.

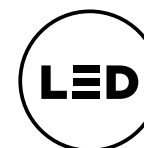

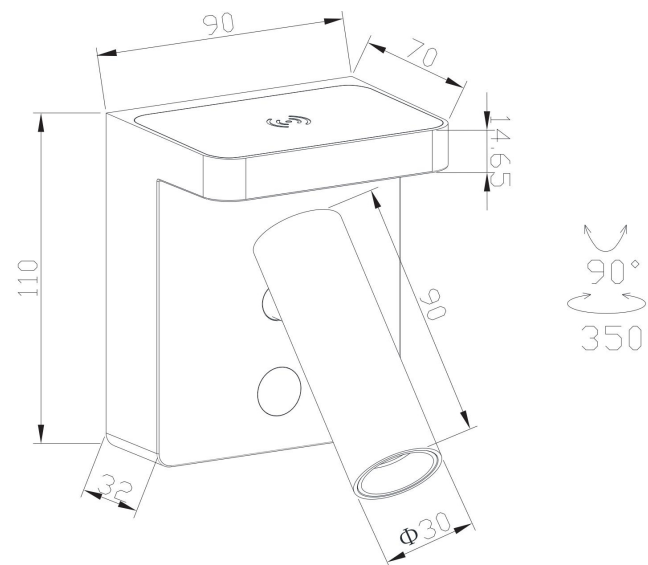

Avoid all fire sources (cigarettes, alcohol, candles) inside of the luminaires or close around electric shock or fire. When the lamp is abnormal, please cut off the power quickly.

Overlong use of lamps or random replacement of non-original accessories will increase power loss. Accuracy performance instructions can refer to change drawings, specifications and assembly instructions.

**WARNING:**  
The light and Driver cannot install on the combustible surface, and the place where has explosive gas, liquid dust.
