Adding Entry Sensor to Your System	02	04	Notice
Mounting the Sensor	02		

WHAT'S INCLUDED

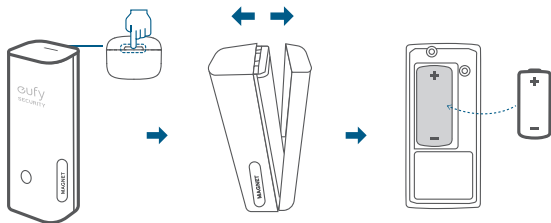

For Entry Sensor Installation

Note: Entry Sensor is only compatible with the eufy Security Homebase or Homebase E.

BATTERY PLACEMENT

Remove the battery compartment lid on the Entry Sensor and insert the provided CR123A battery. Replace the lid.

ADDING ENTRY SENSOR TO YOUR SYSTEM

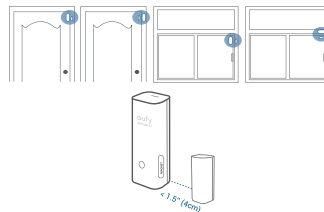

On eufy Security app follow the on-screen instructions to add your eufy Security devices. Choose **Add Device**, then select **Entry Sensor** to add it to your system.

MOUNTING THE SENSOR

Place the sensor on the edge of a door or window. Use the adhesive strips (On the back of the sensor) or mounting screws provided to mount the sensor.

- Make sure the gap between Entry Sensor and the sensor magnet is less than **1.6 in (4 cm)** when the door or window is closed.
- The bottom of the sensor magnet should align with the **bottom** of Entry Sensor.

STATUS LED

Sensor LED indicator	Entry Sensor status
 Flashing blue	Adding to HomeBase
 Flashing blue (Once)	Sensor detects an open/close activity
 Flashing red (Once)	Sensor battery is low or disconnects from HomeBase

FAQ

1. What battery does the Entry Sensor use?

Entry Sensor uses a CR123A battery with 3V output.

2. How long does the battery last?

One CR123A battery usually lasts up to 2 years, but depends on the usage.

NOTICE

 This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

Hereby, Anker Innovations Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit the Web site <https://www.eufylife.com/>.

Do not use the Device in the environment at too high or too low temperature, never expose the Device under strong sunshine or too wet environment.

The suitable temperature for the product and accessories is 0°C - 40°C.

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of $d=20$ cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

SUB-1G Frequency range: 866~866.8MHz 868.2~869MHz

Sub-1G Max Output Power: 8.865dBm(ERIP for 868.2~869MHz); 11.746dBm(ERIP for 866~866.8MHz)

The following importer is the responsible party (contact for EU matters only)

Importer: Anker Technology (UK) Ltd

Importer Address: Suite B, Fairgate House, 205 Kings Road, Tyseley, Birmingham, United Kingdom B11 2AA

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed / mobile exposure condition. The min separation distance is 20cm.

The following importer is the responsible party

Company Name: POWER MOBILE LIFE, LLC

Address: 400 108th Ave NE Ste 400, Bellevue, WA 98004-5541

Telephone: 1-800-988-7973

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device."

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil n' doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

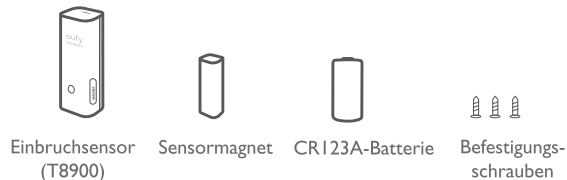

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

INHALTSVERZEICHNIS

Im Lieferumfang	08	09	Sensor Anbringen
Batterie Einlegen	08	10	Led
Den Einbruchsensor Ihrem System Hinzufügen	09	10	Häufig Gestellte Fragen

IM LIEFERUMFANG

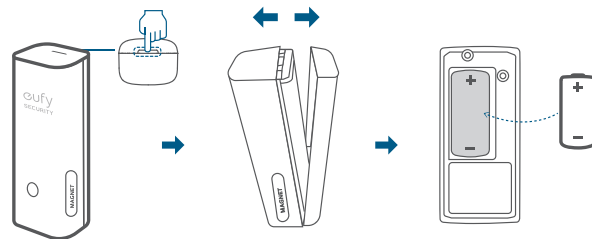

Für die Einbruchsensor-Installation

Note: Der Eingangssensor ist nur mit der eufy Security Homebase oder Homebase E kompatibel.

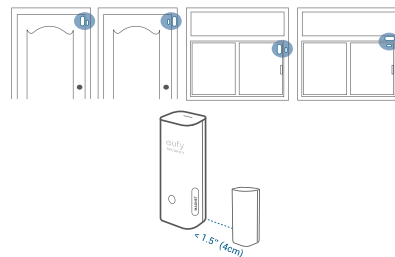

BATTERIE EINLEGEN

Nehmen Sie den Deckel des Batteriefachs des Einbruchsenors ab und setzen Sie die im Lieferumfang enthaltene CR123A-Batterie ein. Bringen Sie den Deckel wieder an.

DEN EINBRUCHSENSOR IHREM SYSTEM HINZUFÜGEN

Befolgen Sie in der Eufy Security-App die Anweisungen auf dem Display, um Ihre Eufy Security-Geräte hinzuzufügen. Wählen Sie **Gerät hinzufügen** aus und dann **Einbruchsensor**, um diesen Ihrem System hinzuzufügen.

SENSOR ANBRINGEN

Bringen Sie den Sensor an der Kante einer Tür oder eines Fensters an. Verwenden Sie dazu die Klebestreifen (auf der Rückseite des Sensors) oder die im Lieferumfang enthaltenen Befestigungsschrauben.

- Stellen Sie sicher, dass der Abstand zwischen dem Einbruchsensor und dem Sensormagneten weniger als 4 cm beträgt, wenn die Tür oder das Fenster geschlossen ist.
- Die Unterseite des Sensormagneten sollte an der Unterseite des Einbruchsenors ausgerichtet sein.

LED

Farbe der Sensor-LED-Anzeige	Status des Einbruchsenors
 Blinkt weiß	Wird der HomeBase hinzugefügt
 Blinkt einmal weiß	Sensor erkennt eine Aktivität des Typs Öffnen / Schließen
 Blinkt einmal rot	Ladestand der Sensorbatterie ist niedrig, oder der Sensor hat keine Verbindung zur HomeBase

HÄUFIG GESTELLTE FRAGEN

1. **Welche Batterie wird für den Einbruchsensor verwendet?**
Für den Einbruchsensor wird eine CR123A-Batterie mit einer Ausgangsleistung von 3 V verwendet.
2. **Wie lange hält die Batterie?**
Eine CR123A-Batterie hält in der Regel bis zu 2 Jahre, je nach Nutzung.

TABLA DE CONTENIDOS

Contenido	12	13	Montaje del Sensor
Colocación de La batería	12	14	Led
Cómo Añadir el Sensor de Entrada al Sistema	13	14	Preguntas Frecuentes

CONTENIDO

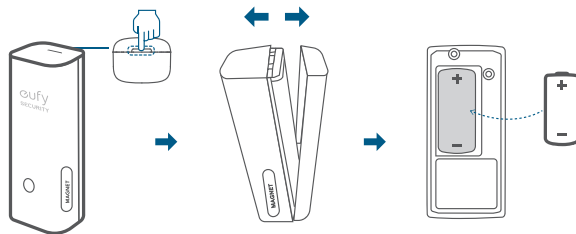

Instalación de sensores de entrada

Note: Entry Sensor solo es compatible con eufy Security Homebase o Homebase E.

COLOCACIÓN DE LA BATERÍA

Retire la tapa del compartimento de la batería del sensor de entrada e inserte la batería CR123A. Vuelva a colocar la tapa.

CÓMO AÑADIR EL SENSOR DE ENTRADA AL SISTEMA

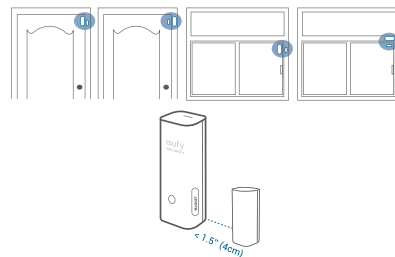

En la aplicación eufy Security siga las instrucciones que aparecen en la pantalla para agregar sus dispositivos de seguridad eufy. Elija **Agregar dispositivo** y, a continuación, seleccione **Sensor de entrada** para añadirlo a su sistema.

MONTAJE DEL SENSOR

Coloque el sensor en el borde de una puerta o ventana. Utilice las bandas adhesivas (en la parte posterior del sensor) o tornillos de montaje suministrados para montar el sensor.

- Asegúrese de que la separación entre el sensor de entrada y el imán del sensor es inferior a 4 cm cuando la puerta o la ventana están cerradas.
- La parte inferior del imán del sensor debe alinearse con la parte inferior del sensor de entrada.

LED

Color del indicador LED del sensor Estado del sensor de entrada

- | | | |
|---|---------------------------|--|
|  | Parpadeo blanco | Se está añadiendo a HomeBase |
|  | Parpadeo blanco (una vez) | El sensor detecta una actividad de apertura/cierre |
|  | Parpadeo rojo (una vez) | La batería del sensor se está agotando o se desconecta de HomeBase |

PREGUNTAS FRECUENTES

1. **¿Qué batería utiliza el sensor de entrada?**
El sensor de entrada utiliza una batería CR123A con salida de 3 V.
2. **¿Cuánto dura la batería?**
La batería CR123A dura hasta 2 años, pero depende del uso.

TABLE DES MATIÈRES

Contenu	16	17	Montage du Capteur
Placement de la Pile	16	18	LED
Ajout d'un Capteur D'entrée à Votre système	17	18	FAQ

CONTENU

Pour l'installation du capteur d'entrée

Capteur d'entrée
(T8900)

Aimant de
capteur

Pile CRI23A

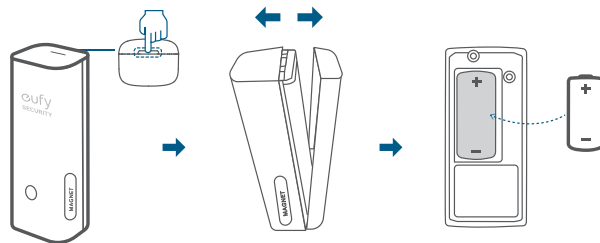

Vis de montage

Note: Le capteur d'entrée est uniquement compatible avec l'eufy Security Homebase ou Homebase E.

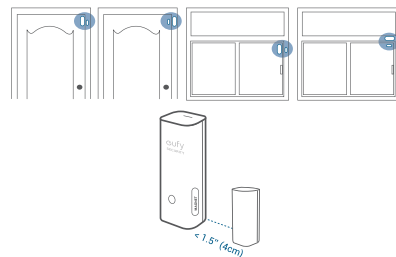

PLACEMENT DE LA PILE

Retirez le couvercle du compartiment à pile du capteur d'entrée et insérez la pile CRI23A fournie. Remplacez le couvercle.

AJOUT D'UN CAPTEUR D'ENTRÉE À VOTRE SYSTÈME

Sur l'application Eufy Security, suivez les instructions à l'écran pour ajouter vos périphériques Eufy Security. Choisissez **Ajouter un périphérique**, puis sélectionnez **Capteur d'entrée** pour l'ajouter à votre système.

MONTAGE DU CAPTEUR

Placez le capteur sur le bord d'une porte ou d'une fenêtre. Utilisez les bandes adhésives (à l'arrière du capteur) ou les vis de montage fournies pour monter le capteur.

- Assurez-vous que l'écart entre le capteur d'entrée et l'aimant du capteur est inférieur à 4 cm lorsque la porte ou la fenêtre est fermée.
- Le bas de l'aimant du capteur doit s'aligner avec le bas du capteur d'entrée.

LED

Couleur du voyant LED du capteur	État du capteur d'entrée
 Blanc clignotant	Ajouter à HomeBase
 Blanc clignotant (une fois)	Le capteur détecte une activité ouverte/fermée
 Rouge clignotant (une fois)	La pile du capteur est faible ou se déconnecte de HomeBase

FAQ

1. Quelle pile le capteur d'entrée utilise-t-il ?

Le capteur d'entrée utilise une pile CR123A à sortie 3 V.

2. Quelle est la durée de vie de la pile ?

Une pile CR123A dure généralement jusqu'à 2 ans, mais cela dépend de l'utilisation.

INDICE DEI CONTENUTI

Contenuto Della Confezione	20	21	Montaggio del Sensore
Sostituzione Della Batteria	20	22	Led
Aggiunta del Sensore per Ingresso al Sistema	21	22	Domande frequenti

CONTENUTO DELLA CONFEZIONE

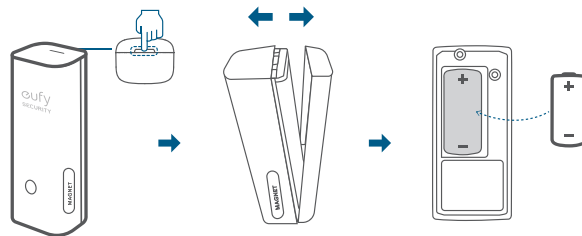

Per l'installazione del sensore per ingresso

Note: Il sensore di ingresso è compatibile solo con eufy Security Homebase o Homebase E.

SOSTITUZIONE DELLA BATTERIA

Rimuovere il coperchio del vano batteria sul sensore per ingresso e inserire la batteria CR123A in dotazione. Rimettere il coperchio.

AGGIUNTA DEL SENSORE PER INGRESSO AL SISTEMA

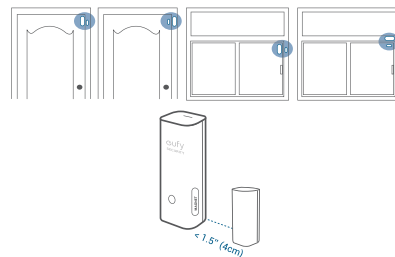

Nell'app Eufy Security, seguire le istruzioni visualizzate sullo schermo per aggiungere dispositivi Eufy Security. Scegliere **Aggiungi dispositivo**, quindi selezionare **Sensore per ingresso** per aggiungerlo al sistema.

MONTAGGIO DEL SENSORE

Posizionare il sensore sul bordo di una finestra o di una porta. Usare le strisce adesive (posizionate sul retro del sensore) o le viti in dotazione per montare il sensore.

- Assicurarsi che lo spazio tra il sensore per ingresso e il magnete del sensore sia inferiore a 4 cm quando la porta o la finestra è chiusa.
- La parte inferiore del magnete del sensore deve allinearsi con la parte inferiore del sensore per ingresso.

LED

Colore spia LED sensore	Stato sensore per ingresso
 Bianco lampeggiante	Aggiunto alla base di ricarica
 Bianco lampeggiante (una volta)	Il sensore rileva un'attività di apertura/chiusura
 Rosso lampeggiante (una volta)	La batteria del sensore è scarica o disconnessa dalla base di ricarica

DOMANDE FREQUENTI

- 1. Che batteria usa il sensore per ingresso?**
Il sensore per ingresso usa una batteria CR123A con uscita da 3V.
- 2. Quanto dura la batteria?**
Una batteria CR123A dura solitamente fino a 2 anni, ma la durata varia in base all'utilizzo.

Sensor
Magnet

CR123A
Battery

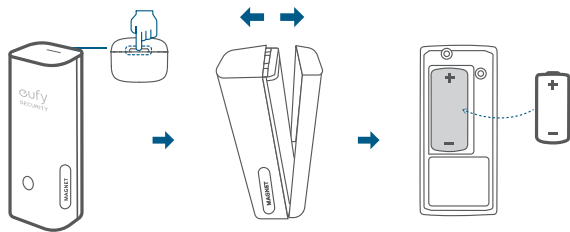

Mounting
Screws

Nota: O sensor de entrada apenas é compatível com a eufy Security HomeBase ou a HomeBase E.

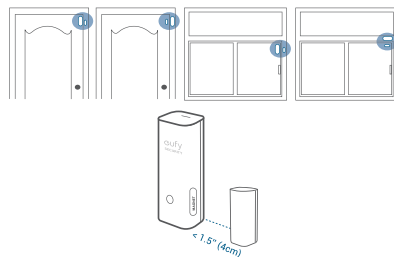

COLOCAÇÃO DA BATERIA

Remova a tampa do compartimento da bateria no sensor de entrada e insira a bateria CR123A fornecida. Volte a colocar a tampa.

ADICIONAR O SENSOR DE ENTRADA AO SEU SISTEMA

Na aplicação eufy Security siga as instruções no ecrã para adicionar os seus dispositivos eufy Security. Selecione Adicionar dispositivo e, em seguida, selecione Sensor de entrada para o adicionar ao seu sistema.

INSTALAR O SENSOR

Coloque o sensor no parapeito de uma porta ou janela. Utilize as fitas adesivas (na parte de trás do sensor) ou os parafusos de instalação fornecidos para instalar o sensor.

- Certifique-se de que o espaço entre o sensor de entrada e o íman do sensor é inferior a 4 cm (1,6 pol) quando a porta ou a janela estiver fechada.
- O fundo do íman do sensor deve ser alinhado com o fundo do sensor de entrada.

LED

indicador LED do sensor	Estado do sensor de entrada
 Azul intermitente	Adicionar à HomeBase
 Azul intermitente (uma vez)	O sensor deteta uma atividade de abrir/fechar
 Vermelho intermitente (uma vez)	A bateria do sensor está fraca ou este desligou-se da HomeBase

PERGUNTAS FREQUENTES

1. Qual a bateria utilizada no sensor de entrada?
O sensor de entrada utiliza uma bateria CR123A com uma saída de 3 V.
2. Quanto tempo dura a bateria?
Normalmente, uma bateria CR123A dura até 2 anos, mas depende da utilização.

INHOUDSOPGAVE

Wat Zit er in de Doos?	28	29	De sensor Monteren
Plaatsing Van de Batterij	28	30	Led
Openingssensor Aan uw Systeem Toevoegen	29	30	Faq

WAT ZIT ER IN DE DOOS?

Voor de installatie van de openingssensor:

Openingssensor
(T8900)

Sensormagneet

CR123A-batterij

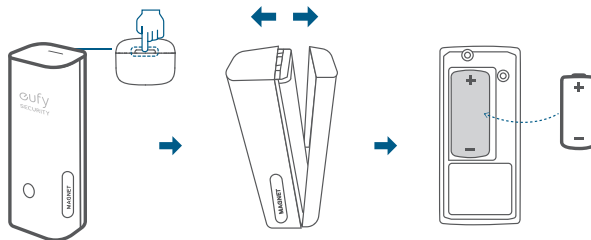

Bevestigingsschroeven

Nota: De openingssensor is alleen compatibel met het eufyCam Security-systeem.

PLAATSING VAN DE BATTERIJ

Verwijder het klepje van het batterijvak op de openingssensor en plaats de meegeleverde CR123A-batterij. Plaats het klepje terug.

OPENINGSSENSOR AAN UW SYSTEEM TOEVOEGEN

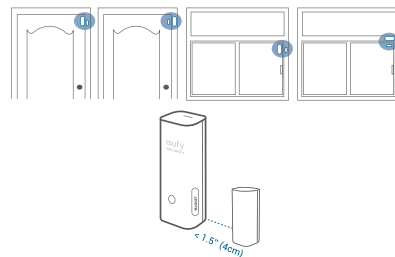

Volg in de eufy Security-app de instructies op het scherm om uw eufy Security-apparaten toe te voegen. Kies **Apparaat toevoegen** en selecteer **Openingssensor** om deze toe te voegen aan uw systeem.

DE SENSOR MONTEREN

Plaats de sensor op de rand van een deur of raam. Bevestig de sensor met behulp van de zelfklevende strips (op de achterkant van de sensor) of de meegeleverde bevestigingsschroeven.

- Zorg ervoor dat de afstand tussen de openingssensor en de sensormagneet minder dan 4 cm is wanneer de deur of het raam gesloten is.
- De onderkant van de magneet moet zijn uitgelijnd met de onderkant van de sensor.

LED

Kleur LED-indicator van sensor Status van openingssensor

	Knippert wit	Toevoegen aan HomeBase
	Knippert één keer wit	Sensor detecteert een opening/sluiting
	Knippert één keer rood	De batterij van de sensor is bijna leeg of maakt geen verbinding met de HomeBase

FAQ

- 1. Welke batterij gebruikt de openingssensor?**
Openingssensor maakt gebruik van een CR123A-batterij met 3V-uitgangsvermogen.
- 2. Hoe lang gaat de batterij mee?**
Een CR123A-batterij gaat meestal maximaal 2 jaar mee, maar dit is afhankelijk van het gebruik.

اللوازم المضمّنة	32	33	تركيب جهاز الاستشعار
مكان وضع البطارية	32	34	LED
إضافة جهاز Entry Sensor إلى النظام	33	34	FAQ

لتثبيت جهاز Entry Sensor

Entry Sensor
(T8900)

مغنطيس جهاز
الاستشعار

بطارية CR123A

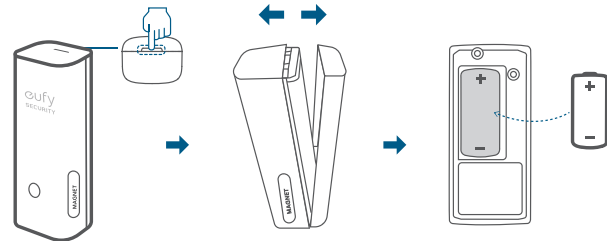

براغي للتركيب

Note: يتوافق جهاز Entry Sensor مع نظام الأمان eufyCam فقط.

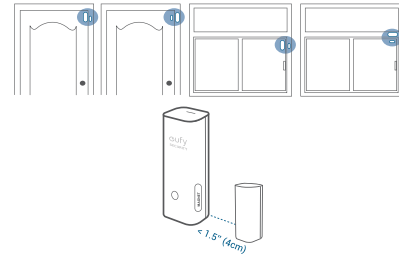

مكان وضع البطارية

أزل غطاء حجرة البطارية الموجود على Entry Sensor وأدخل بطارية CR123A المضمّنة. استبدل الغطاء.

إضافة جهاز Entry Sensor إلى النظام

في تطبيق Eufy Security، اتبع التعليمات التي تظهر على الشاشة لإضافة أجهزة Eufy Security. اختر إضافة جهاز، ثم حدد Entry Sensor لإضافته إلى النظام.

تركيب جهاز الاستشعار

ضع جهاز الاستشعار على حافة باب أو نافذة. استخدم الشرائط اللاصقة (على الجانب الخلفي من جهاز الاستشعار) أو براغي التركيب المضمنة لتثبيت جهاز الاستشعار.

• تأكد من أن تكون الفجوة بين جهاز Entry Sensor ومغناطيس جهاز الاستشعار أقل من 1,6 بوصة (4 سم) عند إغلاق الباب أو النافذة.

• يجب أن تتم محاذاة الجهة السفلية لمغناطيس جهاز الاستشعار مع الجهة السفلية لجهاز Entry Sensor.

LED

لون مؤشر DEL لجهاز الاستشعار	حالة جهاز rosneS yrtnE
أبيض وامض	الإضافة إلى HomeBase
أبيض وامض (مرة واحدة)	يكتشف جهاز الاستشعار نشاط فتح / إغلاق
أحمر وامض (مرة واحدة)	طاقة بطارية جهاز الاستشعار منخفضة أو مفصولة عن HomeBase

FAQ

1. ما البطارية التي يستخدمها جهاز Entry Sensor؟
يستخدم جهاز Entry Sensor بطارية CR123A بإخراج 3 فولت.
 2. كم تدوم البطارية؟
تدوم بطارية CR123A عادةً حتى سنتين كحد أقصى، ولكن يعتمد ذلك على الاستخدام.
