

FUSE PORTABLE

Named by its distinct component in solid brass that reaches out to hold and organically merge with the form of the glass shade, FUSE Collection is a family of interior lamps that comprises single wall, double wall, trippel pendant and portable versions. With a starting point of soft, classic yet contemporary shapes and genuine materials such as burnished brass, 3 layered opal-glass and natural alabaster stone, the initial ambition with the FUSE Collection, was to conceive a design that strives for longevity by its deliberate approach to materiality and form.
