### Rechargeable Table Lamp

#### 1. Charging the Lamp

1. Connect the Charging Station to a USB power source using the USB cable. You can use a USB charger, PC, laptop, etc.
2. Gently place the Table Lamp onto the Charging Station.
3. The LED light at the base of the lamp (Charging Status Indicator) will show the charging status:
  - Green Blinking Light: The battery is charging.
  - Green Steady Light: The battery is fully charged, and the lamp is ready to use.

#### 2. Operating the Lamp

1. Turn On and Change Light Colors:
  - Press the touch switch on the lamp base once: The lamp will light up in orange.
  - Press the touch switch a second time: The lamp will light up in creamy (orange + white).
  - Press the touch switch a third time: The lamp will light up in white.
  - Press the touch switch a fourth time: The lamp will turn off.
2. Adjust Brightness:
  - During any of the light modes, press and hold the touch switch for more than 1 second to adjust the brightness.

#### 3. Caution

- Keep the metal contacts at the bottom of the lamp clean and dry.
- Do not immerse the lamp in water or allow water to touch the contacts.
- Avoid using the lamp near fire or extreme heat.
- Do not throw or drop the lamp.
- Dispose of the lamp following your local garbage regulations.

#### 4. Product Specifications

Lamp Wattage: 2W  
Input: DC 5V  
LED Brightness: 200 lumens  
Light Color Options: 2200K/2700K/3000K  
Color Rendering Index (CRI): >80 Ra  
Default Brightness: 100%  
Charging Time: 2 hours (DC 5V, 1A)  
Battery Life: 4 hours at full brightness  
Battery Type: 1800mAh Li-ion (1 unit)  
Charging Dock: USB Type-C Charging Station  
Dimming: Touch-Dimming by press switch  
Water Resistance: IP44  
Protection Class: III
