ASSEMBLY INSTRUCTIONS – ART. 2125.2

1) Before assembling any item, don't forget to disconnect main power supply.
2) Fix the wall lamp to the wall using the provided screws.
3) Connect the wires coming out of the wall with the wires of the wall lamp which are fixed in the bulb holder. Be sure to connect the wire respecting the colour codes: blue with blue; brown with brown and earth yellow-green with yellow- green.
4) Don't use bulbs with watt superior to that indicated in the label.
5) Hang the wall lamp only inside and in a dry place.
