INSTALLATION INSTRUCTIONS

The Bestlite key:

It's a practical tool that enables you to fasten the lamp arm. Simply use it like a screwdriver in the slot in the Bestlite nut.

1:1 template for pre-drilling

Cut out an exact 1:1 photocopy, and use directly on your wall for accurate placement of the holes.

Make sure the horizontal line is level.

Technical information:

Light source: E14, 1x40W incandescent or 1x30W halogen bulb.
Turn power off when changing light bulb.
The lamp is not approved for outdoor use or use in damp/bath rooms.

Some advice on cleaning your Bestlite:

Powder coated parts – base/bracket and shade:
Wipe the parts with a damp cloth soaked in warm water and a bit of mild detergent.

Chrome plated parts:
Wipe the parts with a damp cloth and wipe dry to bring up shine.
If the surface is shiny use a metal polish made especially for chromium or other soft metals.
Use only soft cloth for wiping and polishing, never sponges or steel wool.
Do not use abrasive or alkaline cleaning materials, glass cleaners or household ammonia.
Do not use acids or alkaline cleaning materials, glass cleaners or household ammonia.

A practical tool that enables you to fasten the lamp arm - simply use like a screwdriver in the slot in the Bestlite nut.

Wall mounting instructions
The BL 1, BL 2, BL 3, BL 4, BL 5, BL 6, BL 7, and BL 10

The wall mounting plate

Four holes, mount the plate to the wall through these - use appropriate screws and plugs.

Two threaded holes, mount the cap through these. Use the supplied Bestlite screws in these holes (see below).

Position of these two holes should always be horizontal.

Mounting the plate as shown is important since the lamp is only straight if the plate is straight.

Wall mounting:

- Choose and pencil mark the wall carefully. Pre-drilling and use of plugs in the wall is recommended.
- Mount the plate - make sure you use appropriate screws and plugs for your wall as the plate carries the weight of the lamp.
- When mounting the BL 5, mount the lamp with the upper cap attached to top of the plate. Use about 1 cm and only mount the upper cap when the lamp is secured in its straight position.
- When the plate is fastened to the wall - adjust the lamp by covering the clip and lamp into into the plate.
