General Instructions
Please read before installation

Manual coffee maker using a plunger system for brewing coffee with hot water.
Intended for household use.
Materials: Borosilicate glass beaker (ISO 7459:2004 – thermal shock resistance); Stainless Steel 304 knob, filter and plunger rod; Silicone washer, 1 French Press with capacity of 1 L / 33.8 oz.

Safety Instructions:
- Ensure the coffee maker is placed on a stable surface during use
- Keep the spout facing away from the body when handling or pouring
- Only use coarse ground coffee to avoid pressure build-up
- Lower the plunger slowly and with minimal force
- If resistance is felt, stop, remove the plunger, stir, and try again
- Do not apply excessive force at any time
- Ensure the lid is properly positioned before pouring
- Avoid sudden temperature changes to the glass beaker
- Do not use damaged components

Scald / Burn Hazard:
- Hot liquids can cause serious burns
- Applying excessive pressure may result in hot liquid being forced out of the pot
- Always press the plunger down slowly and in a controlled manner
- Keep hands and face clear of the spout during use
- Always confirm the lid is correctly positioned before pouring
- Do not allow children to use the product

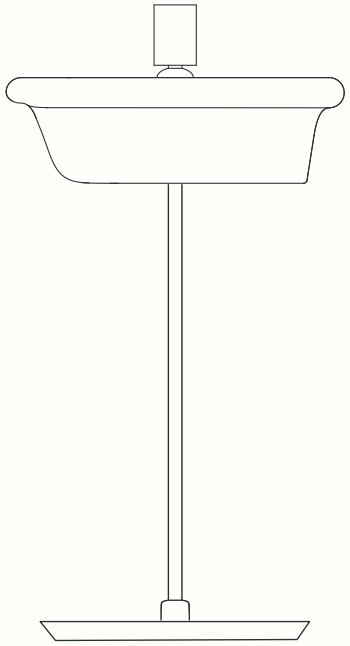

Cleaning instructions:
- Disassemble the filter unit after each use
- Clean all components thoroughly before reassembly
- Hand wash with dish soap
- Do not use abrasive cleaning tools or harsh chemicals

Other:
- Intended for brewing coffee only
- Not suitable for heating liquids directly
- Do not use on stove or other heat sources
- Replace the glass beaker if it becomes damaged
- Ensure all parts are dry before storage
