Trombone Table Lamp

The Trombone series was designed in 1966 by the renowned Danish lighting designer Jo Hammerborg, the brainchild behind a myriad of original lamps that gradually gained classic status – several of them featuring cylindrical shades. It is a simple, elegant table lamp featuring a rigid geometric design. The beautifully-composed Trombone table lamp will make a beautiful, distinctive feature in many rooms in any home.

In addition to the table lamp, the Trombone series also features a pendant lamp and floor lamp. They are available in either steel with brass plating or brushed aluminium, testifying to Jo Hammerborg's love of metals.
