Evoking nostalgic feelings and soft decorative references, UIMAGE introduces their latest lighting collection – Lemon Squeeze. Combining contemporary elegance with graceful nods to the past, the collection features a selection of wall and pendant lamps available in various sizes and finishes.

The Lemon Squeeze collection is a celebration of light and design, with each lamp crafted from extruded glass with distinctive ripples bracing the surface, providing a unique texture that catches the light. At its core, a diffuser tube ensures gentle, even illumination, creating a serene and harmonious atmosphere. Enhanced by sculptural metal accents, the design exudes understated sophistication with a touch of ornamental charm.

Designed by Søren Ravn Christensen, the Lemon Squeeze collection seamlessly complements any space with its graceful aesthetic and glowing light:

“The Lemon Squeeze Collection creates light that feels light and endless. The straight, uninterrupted rays are so subtle they seem almost invisible, softly brightening every moment of the day and night.”

While rooted in timeless design traditions, the Lemon Squeeze collection combines modern sensibility with memories of another era. Functional yet decorative, the lamps bring warmth and sophistication to any setting—whether brightening a living room, enhancing a hallway, or setting the mood for a relaxed evening.
