Description

A floor lamp made in bent aluminium with an essential design.

Its mirror-like surfaces give atmosphere lighting in the front side and ambient lighting on its rear.

The only 6mm thick aluminium disc has a smooth profile, to enhance its class and uniqueness even in the details of its colour.

The lighting is highly efficient thanks to 24V LED stripes.

Available with 3000 °K or 2700 °K LED colour temperature.
