## Trombone Cylinder Pendant

The Trombone series was designed in 1966 by the renowned Danish lighting designer Jo Hammerborg, the brainchild behind a myriad of original lamps that gradually gained classic status – several of them featuring cylindrical shades. It is a simple, elegant pendant lamp featuring a rigid geometric design. The beautiful simplicity of the cylindrical Trombone pendant lamp makes it perfect for any modern interior.

The Trombone series also features a table lamp and a floor lamp, all resembling a trombone, the inspiration for the name of the series. All three lamps are available in either steel with brass plating or brushed aluminium, testifying to Hammerborg's love of metals.
