

FLOS

F1074009 White

Bellhop Glass T

Designed by Edward Barber and Jay Osgerby, 2024

Halogen - 100W

A large-scale table lamp. The dome is composed of a triplex opaline glass diffuser, structured as a sandwich of glass layers, with the white layer inserted between two transparent ones that are blown together simultaneously. The thicknesses vary for each layer. This design has been developed in collaboration with the Flos R&D Department. The use of triplex opaline glass and the large size, which keeps the light source at a distance from the inner surface of the diffuser, allows for uniform, warm, and welcoming lighting, creating a pleasant atmosphere in the space. This version of the Bellhop Glass lamp, with a diameter of 33 cm, rests on a cylindrical aluminum base of 12 cm in diameter and is available in Bright Aluminium, Cioko, and White versions. The materials stand out not only for their aesthetic value but also for their recyclability at the end of their lifecycle, emphasizing Flos's commitment to sustainability.

Mounting instructions

Photometric Files

LDT / IES

Main specifications

EAN	8059607069288
Mounting	Table
Environments	Indoor dry location
Light Source Type	Bulb
Lamp category	Halogen
Lamp holders	E27
Number of heads	1
Power (W)	100

Physical

Colour	White
Length (mm)	330
Cord colour	Mouse Grey
Cord length (mm)	2400
Net weight (kg)	4.05
Package volume (m3)	0.06
IP internal	20

Schematic light drawing

Beam Angle: -
