

Nebra Floor Lamp

The Nebra Floor Lamp features the series' signature plissé shade, offering a delicate, structured lightness that contrasts effortlessly with its matte steel base. The adjustable shade, operable with a gentle sweeping motion, allows for easy modulation of both the lamp's expression and the direction of light. The Nebra Floor Lamp even has an adjustable pole, which can be set to any height between 148 and 175 cm, enabling you to adjust the light comfortably to its surroundings and user. These considered features elevate Nebra beyond mere illumination, shaping a dynamic interplay of form and function.

Product highlights

- An extension of the Nebra family.
- Incorporates a transformative mechanism enabling the lamp to alter its shape and provide various types of lighting.
- Compliant with CE, RCM and ETL standards for use in both EU, AU and US markets.

Product Type	Floor Lamp, Lightning
--------------	-----------------------

Designer	Lukas Bazle, 2026
----------	-------------------

About the Designer	Fueled by a passion for blending functional solutions with engaging interactivity, industrial designer Lukas Bazle crafts captivating designs that gracefully navigate the boundary between the technical and the intuitive. Every creation emanates a keen aspiration to spark and sustain fascination with the product—a message that carries on from the experimental genesis through the developmental stages and ultimately into the user's home.

Environment	Indoor
-------------	--------

Country of Origin	China
-------------------	-------

Assembly Requirements	Attach lamp shade and extendable tube to the lamp base.
-----------------------	---

Material	The Nebra Floor Lamp features a plissé shade made of PES textile. The shade is pressed with a stiff plastic film to provide it with structure and rigidity for repeated use. The mechanical ring and fittings inside the shade are directly linked to the LED module, which is made of cast aluminum and steel tubes.
