Description

The **VASO series** is a collection of pendant lights that combines subtle design with functionality. The models are available in **Smoked, White, and Amber** finishes, and their glass and metal shades give them a distinctive character. They emit a warm **3000K light**, creating a pleasant atmosphere in any interior.

Thanks to the adjustable height available in selected models, they can be adapted to various room layouts, while the **120° beam angle** ensures even illumination throughout the space. Their lightweight construction makes installation easy, and the high-quality materials guarantee durability and long-lasting performance.

The **VASO collection** is perfect for living rooms, dining areas, and bedrooms, adding a unique charm and elegance to any interior
