CALABASH™ NEW COLOURS CONTOURS OF CREATIVITY

A new Meteor finish for the curvy Calabash™ pendant. Hang pendants in clusters or alone, for warm light and boldness.

CONTOURS OF CREATIVITY

Hang the Calabash™ pendant in clusters or alone for a bit of boldness

The calabash pumpkin inspired Komplot Design to create a sculptural design that stands out with or without the light turned on. Inspired by the metallic sparkle and rough, sandy structure of a meteor, Komplot has come up with a new and vibrant surface treatment for the Calabash™ pendant.

The new, Calabash™ pendant comes in two sizes - P1 and P2 - and is made of aluminium with a structure painted surface. Opposite the original design, the new Calabash finish emphasises the shape in a very interesting way.

The existing chrome variants in gold and silver come in P1, P2 and P3 sizes and reflect surroundings, almost like a mirror.

DESIGNER

Danish architect Poul Christiansen (b. 1947) and Russian industrial and graphic designer Boris Berlin (b. 1953) founded Komplot Design in 1987.
