Cone Pendant

A classic pendant with charm, finesse and an elegant, solid brass ring, designed in the 1950s by the internationally renowned lighting designer, Svend Aage Holm-Sørensen. The rigorous expression means that the Cone pendant can hang beautifully alone or as part of a group, above the dining table or kitchen worktop, or in a dark corner of the living room.

In addition to direct lighting, Cone's iconic light grooves along the edge of the metal shade provide an indirect graphic lighting effect, which lends character to the design.

Choose from several classic colours in Warm Nordic's exclusive silky matt quality paint, which guarantees an extraordinarily beautiful and durable surface.
