

TRANSLOETJE

fatboy®

EN Manual

Instructions for use

First time use:

- Before packing the lamp is put in sleeping mode to save energy during transportation and it is required to activate it, by inserting the USB Type-C plug into the slot at the bottom of the lamp and to connect the adapter into a power socket, after unpacking. The lamp is activated in a few seconds and will fully function now.
- We recommend charging the battery for at least 8 hours, when first time use.

General use:

- Charge the luminaire by inserting the USB Type-C plug into the slot (on the bottom of the luminaire).
- Connect the adapter into the power outlet. Plug the 5V 1A adapter into the wall socket. It will take approximately 3 hours to fully charge the lamp. There is an indicator light located next to the USB slot. While the battery is charging the light will flash. When the battery is fully charged it will remain lit.
- The lamp can be controlled by touching the base of the lamp right above the box. To adjust the brightness:
 - Starting position: the lamp is switched off;
 - Touch the base once: the light will turn on at 15% brightness;
 - Touching it a second time: 50% brightness;
 - Touching it a third time: full brightness;
 - And at the fourth time the light will turn off.
- Charge the lamp when it stops lightening up.
- If the battery does not charge anymore please contact your Fatboy® dealer. Never try to replace the battery yourself.
- The disposal of batteries should be in compliance with any local regulations that address the disposal of hazardous materials. Do not incinerate!

Maintenance

When not in use for a long time, make sure the lamp is turned off. We recommend to recharge the lamp every three months to keep the battery in good condition. Do not leave the lamp for a long period outdoors.

Cleaning the lamp

Use a soft cloth, lukewarm water and liquid soft soap. Do not use cleaning agents containing alcohol, ammonia, benzene, or abrasive substances. Never open the lamp when cleaning.

Trouble shooting

The lamp is not working:

- Check the connection with the adapter and make sure the lamp is charging. The charger works when the lamp can be turned on during charging.
- When the lamp doesn't charge anymore, please contact your Fatboy® dealer. Never try to replace the battery yourself.
- Do not use the lamp if the USB cable is damaged.

The lamp has fallen and now is damaged:

- If the lamp no longer works it is unsuitable for use. If this is the case, please contact your Fatboy® dealer.

Never attempt to repair the lamp yourself.

IMPORTANT!

Please contact your Fatboy® dealer if you have any other problems.

Technical specifications

Model: Transloetje
Secondary rating (adapter recommendation): 5 VDC, 1 A
Charging rate 5V 1A (Charger not included)
Made in China
Safety Class: Class III
Connection: Micro-USB, type B
Light source: 2 x 1 Watt Led filament
Switch: built-in touch switch/dimmer (3 dimmer positions)
IP value: 21
Ambient temperature: -10 to 40 °C
Materials: Polycarbonate (body)
Internal battery: Li-PO 1600 mA
Dimensions: 6.49 in/16.5 cm (diameter), 10.24 in/26 cm (height)
Total weight: ± 0.5 kg

This luminaire contains a LED light source, which cannot be replaced by the end user and shall only be replaced by the manufacturer or his service agent.

EN

Fatboy® product information Transloetje

Transloetje is a wireless lamp with a built-in rechargeable battery and is available in different colors. The light source is a double led filament emitting 2700 K (warm white) light. The lamp is protected from dripping water and is equipped with a USB Type-C connection. Please make sure to use a 5V 1A adapter to charge the Transloetje. A fully charged lamp remains lit for more than 8 hours (at 100% brightness).

WARNING: READ ALL INSTRUCTIONS BEFORE USE! SAVE THESE INSTRUCTIONS!

- Make sure to use a 5V 1A USB adapter (using a different power adapter may cause irreparable damage to the luminaire).
- Use only the supplied USB cable to charge the lamp.
- This is not a toy, please keep away from children.
- Place the lamp on a dry, horizontal surface.
- Do not expose the lamp to excessive heat from heat sources.
- The lamp is intended for indoor use, but can be used outdoors without adapter. Protect it against water and store inside after use.
- Charge the luminaire by inserting the USB Type-C plug into the slot (on the bottom of the luminaire).
- Connect the adapter into the power outlet. Plug the 5V 1A adapter into the wall socket.
- Inspect the cable on the provided adapter for damage.
- When the lamp is switched on, do not stare in the light source. It may harm the eyes.

Battery

If the battery will not charge any more, please contact your Fatboy® dealer. Never try to replace the battery yourself.

The disposal of batteries should be in compliance with any local regulations that address the disposal of hazardous materials. Do not incinerate!

When the light source reaches its end of life, the whole luminaire needs to be replaced. We do not recommend to use the lamp with the adapter connected for a long time, which can reduce the battery life time.

NOTE: THE LUMINAIRE SHALL BE CHARGED BY AN INDEPENDENT SELV LED DRIVER WHICH IS CERTIFIED WITH STANDARD EN 61347-2-13 (CLASS II, FAIL-SAFE OR SHORT CIRCUIT PROOF, WITH SUITABLE OUTPUT RATINGS, AND MAXIMUM OUTPUT VOLTAGE SHALL NOT EXCEED 5 VDC)

PLEASE MAKE SURE TO USE A 5V, 1A CHARGER to prevent damage to your Transloetje

CE-directive

This product complies with the requirements and other relevant provisions of the current European RoHS and CE directives 2011/65/EC, 2004/108/EC and 2006/95/EC.

UL listed

This product is produced and tested according to the UL 153 regulations.

WEEE instruction

This product is subject to the provisions of the WEEE directive 2012/19/EU. Do not dispose this product together with regular household waste. Consult your local waste disposal authorities for information on collecting points for electrical and electronic waste products.
