- ① Please make sure to turn the power supply off before assembling your RADENT lamp.

Measure and mark where the holes need to be placed.

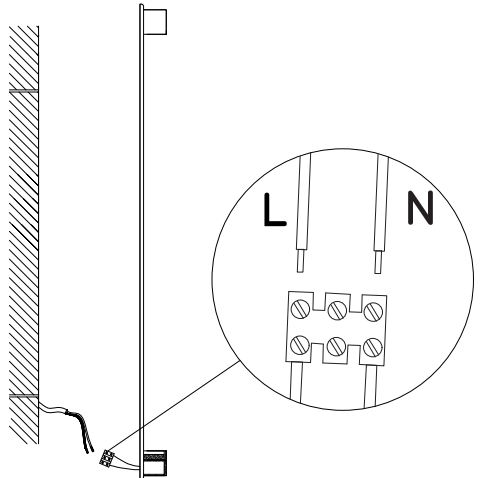

GEJST

- ② Drill the holes and insert the plugs (Part D).

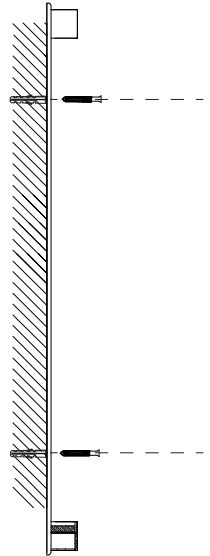

- ③ Connect the cables to the power supply.

GEJST

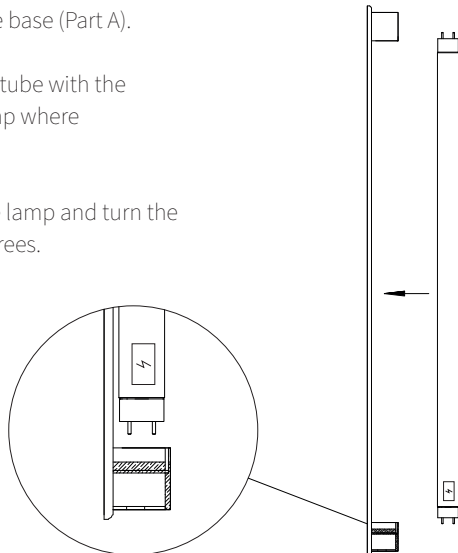

- ④ Secure the base (Part A) to the wall with the screws (Part E)

- ⑤ Insert the LED tube (Part B) into the base (Part A).

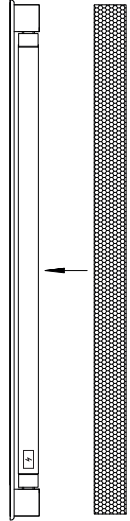

Please make sure to place the LED tube with the L and N towards the end of the lamp where the power is connected.

Fasten the LED tube by holding the lamp and turn the LED tube with your thumbs 90 degrees.

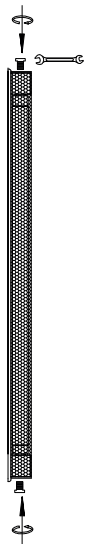

GEJST

- ⑥ Place the lampshade (Part C) over the LED tube (Part B) and base (Part A).

- ⑦ Tighten the bolts (Part E) to secure the lampshade (Part C).

GEJST

- ⑧ RADENT hardwired wall lamp is now assembled.
