1972 Pendant - Large
Designed by Pavoo Tynell

ITEM NUMBER	1972 Pendant, Large - Bamboo	10118944

DESCRIPTION

Designed by the legendary Paavo Tynell, the 1972 pendant features a conical shade in bamboo, crafted by master artisans. The the bamboo slats are hand sewn into a pleated mat and fastened by hand to the wire frame, with a linen liner in between. This directs light down towards the base and creates a diffuse glow around the shade and upward, as the bamboo slats are penetrated by the light. Tynell's signature brass details are present as well, adding an air of timelessness and perfectly complementing the warm tone of the wood and light. Below the bulb, a fabric diffuser modulates the light and, beneath this, a decorative brass detail gives each lamp a flourish of character, and subtly influences the play of light it generates. The Ø90 variant of this pendant has a grandeur of scale that can make it a true centerpiece of even large spaces.
