YourHome Festoon String

Festoon strings are popular both inside and out to add sparkle and light to a space. From outdoor gardens to large commercial lighting arenas, such as restaurants, wedding venues & music events, they add character and ambience for all to enjoy.

Sylvania's YourHome Festoon String Kit is a stylish lighting solution which contains 12 ToLEDo Retro Chroma coloured lamps. These attractive crystal-clear bulbs are different to other coloured LED lamps on the market today. They use filament LED technology to give a sparkling and intense colour output. They are not coated with a plastic film or painted, which can restrict light output and wear off over time. Instead the colour is emitted from the LED filament itself resulting in an improved light output. The festoon is also available without lamps.

The festoon can be set up swiftly and light any sized space. Using a standard EU or UK power plug, the festoon is 12m in length and has the possibility to connect up to 30 chains together. Perfect for a marquee or Christmas market venue.

Although festoon strings can be used inside, the most common use is outside and therefore it is important to ensure that they are not impacted by the changing weather. Sylvania's YourHome Festoon String has been independently tested and verified to meet IP54 and CE/UKCA standards.

Features

- An outdoor festoon with 12 E27 lamp holders, sold with and without ToLEDo Retro Chroma A60 lamps
- High quality rubber cables and custom Sylvania tooling design
- Integrated suspension hooks on every lampholder
- No separate rubber gaskets to get lost – moulded into lampholders
- Through-wiring feature allows extension up to 30 chains (up to 273m)
- IP54 water/dust/dirt resistant
- Independently tested for quality and safety (CE/UKCA)
- Applications include: gardens, theatres, music festivals, hotels and pub garden illumination
