Contemporary classic style • Matte mouth blown opal glass that emits a soft light

Verona is a traditional series in a classic Scandinavian design. Verona is constructed of two beautiful opal white glass shades that ensure a nice even distribution of light into the room. Simultaneously, the contrast between the white opal glass and the matte black metal contributes to a modern look. Verona pendant emits a soft glare free light without compromising on the light output. Therefore, the timeless pendant has many applications and can be used for example above the dining or coffee table. The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
