

80

A technical drawing of a cylindrical component, shown in a perspective view. The drawing consists of two main cylindrical sections. The upper section is shorter than the lower section. The diameter of the cylinder is indicated as $\phi 85$ at the bottom. The height of the upper section is indicated as 80 on the left side. The drawing uses double lines to represent the edges of the cylinder, with a slight gap between the lines to indicate depth. The top and bottom surfaces are represented by ellipses. The overall appearance is that of a hollow cylindrical part, possibly a sleeve or a spacer.

$\phi 85$
