Fringe Wall Lamp

An iconic wall lamp with sophisticated fringes, created in 1960 by the acclaimed Swedish lighting genius, Hans-Agne Jakobsson, and now finally available for all those design lovers who were unsuccessful at auctions. Fringe is a timeless design statement, constructed to create warm, cosy lighting by means of the fringes that conceal the light source beautifully. The Fringe wall lamp evokes the interiors of the past, but in a simplified design with an eye for contrasts and exclusive materials.

Polished brass is combined with tactile fringes, which fall elegantly in several layers from the sophisticated brass border like a flowing skirt. It is a stunning, stylish detail that helped make the Fringe lamp a design icon.
