Bloom Table Lamp

A little table lamp with great personality, designed in 1950 by the grand master of Danish lighting design, Svend Aage Holm-Sørensen, who is internationally acclaimed. The Bloom table lamp is one of the designer's most iconic lamps and familiar in the vintage community. The combination of playfulness and sharp lines makes the table lamp a beautiful item on a desktop or window ledge. A nice touch is Holm-Sørensen's signature: the characteristic holes in a simple pattern along the edge of the metal shade, which add an extra dimension to the lighting effect.

Choose from several beautiful colours in Warm Nordic's exclusive silky matt quality paint, which guarantees an extraordinarily beautiful and durable surface. The table lamp is part of the Bloom range, which also features a pendant and a wall light.
