

The ACAI series combines modern design, a cozy atmosphere, and practical functionality. At its heart is the handcrafted shade made of matte white opal glass, which provides soft, all-round, glare-free illumination. ACAI is available in three different glass sizes: Ø 16 cm / Ø 21 cm / Ø 26 cm. In the version as a round multi-pendant, either 3 or 5 ACAI shades—identical or mixed in size—can be mounted on a central round canopy with a diameter of 40 cm. Each pendant hangs from a 150 cm cable, which can be individually shortened and is also available in longer lengths upon request. This version is particularly well-suited for high ceilings, stairwells, or as a statement lighting piece above round tables. The canopy and holders are made of aluminum and come in a choice of elegant matte black or minimalist matte white powder coating. The white canopy version features transparent cables and white glass holders, while the black version is equipped with black fabric cables and matching black holders. Each shade includes an E27 socket, allowing for easy replacement of the light source. (Note: For the ACAI 16 model, a golf-ball/drop-shaped bulb is recommended.)
