Twinkly Music Dongle

TITLE

USB-powered Twinkly Music Dongle

DESCRIPTION

Twinkly Music Dongle is a USB-powered device that enables all Twinkly devices to create amazing effects in sync with music. Equipped with a very sensitive digital microphone and powerful multicore DSP, Twinkly Music Dongle analyzes any sort of music and literally gives shape to the sound. Twinkly Music's cutting-edge algorithms decode any sound source in real time, whether it's classical Christmas songs or ultimate techno music, to identify relevant musical elements and make the effects come alive into a combined audio-visual experience. By simply pressing the button, you can easily change the music driver to obtain the perfect effect and the ideal atmosphere, for whatever the occasion may be.

Note: Twinkly Music Dongle will work with Twinkly Groups and can be configured to drive only selected Twinkly devices. Best results on Generation II products.
